Time? Power? Money?

Our innovations address all of these needs!

Balancing
work and family
commitments

MEDICAL CENTER

It provides lasting help to people balancing demanding jobs with family care, to singles, and to those facing the challenges of illness or old age.

BUSINESS CENTER

Dealing
with labor
shortages

The mountainous location, which is intended to host the administration of virtual support services for the international community of medical professionals, will not only be a coordination center for exclusive destinations, but also a training center for innovative housing and a center for reforms in rural medicine.

tourism

ASTHMA CENTER

The unique geographical position of coniferous forests in close proximity to the sea creates a natural laboratory for the development of specialised recovery and rehabilitation programmes for people with asthma.

The Asthma Centre will also be a place of professional dialogue — a space where diverse approaches, ideas and business perspectives of modern pulmonology meet.

INNOVATIVE, CONCRETE AND PRACTICAL

Engaging with the Mountain Center means leveraging our experience in business innovations and development, optimization and management, from medicine and tourism to pharmaceutical industries and real estate.

Working with us means sharing infrastructure and human resources by keeping individuality.

YOUR CHANCES FOR SUCCESS

We recognise the challenges posed by labour shortages, particularly those related to health and demographic changes.

We understand the contemporary challenges that employers face, and we support them in helping their employees to balance work and private life.

Solutions
that make your
customers,
employees
and you
happy

So many entrepreneurs are so busy chasing new customers into their front doors, they can't see the existing customers escaping out the back door.
